

Sewerage and Water Board

OF NEW ORLEANS, LOUISIANA

**COMPREHENSIVE ANNUAL
FINANCIAL REPORT
FOR THE YEAR ENDED
DECEMBER 31, 2009**

About The Cover:

The Dwyer Road Drainage Pumping Station project consists of building a new station with a capacity of 1,050 cubic feet per second (cfs). It is located at the intersection of Dwyer Road and Jourdan Road and includes a new building to house three pumps and all the necessary mechanical and electrical components. Hurricane Katrina disrupted the project's progress, but construction has resumed and it is scheduled for completion in the summer of 2010 at a cost of \$19.3 million with 75 per cent Federal funding and 25 per cent local funds. Other associated projects are a new \$58.8 million concrete box culvert beneath Dwyer Road to be completed in 2009 and an Outfall Canal, which was completed in 2004. The station will improve flood protection for a large portion of eastern New Orleans, including the Academy Park, Pines Village and Kenilworth areas.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

New Orleans, Louisiana

Comprehensive Annual Financial Report
For The Year Ended
December 31, 2009

Prepared by:
Finance Administration
Ethel H. Williams
Utility Financial Administrator

MISSION STATEMENT

To be one of the best and most respected suppliers of sewer, water, and drainage service in the south-central United States by providing quality, reliable, and cost effective service to our Customers while maintaining fair and ethical treatment of our well-trained and highly motivated employees.

OUR VALUE

Open, honest, communication
Trust and respect for each other
Offering and encouraging education and opportunity to employees
Fostering enthusiasm among employees through example of the
managers/supervisors
Providing direction and planning and encouraging interdepartment
teamwork
Assuring reliability in providing services to customers

KEY RESULT AREAS

Customer Satisfaction
Cost Effectiveness
Employee Satisfaction
Capabilities Improvement through Training

INTRODUCTORY SECTION

The Sewerage & Water Board of New Orleans provides crucial sewer, water and drainage services to the East Bank of Orleans Parish and Algiers on the West Bank. This photo, taken from the Algiers Water Purification Plant, shows the skyline of the Central Business District and Downtown New Orleans. The scene is a reminder that when the City's population grows for major business, sporting and entertainment events and large conventions and meetings, the Board is able to provide services to thousands of visitors and still provide quality service to its regular residential and commercial customers.

The Board's Water Quality Laboratory is considered one of the best in the nation, capable of detecting more than 100,000 compounds, which could be found in the City's only source of raw water--the Mississippi River. Through the expertise, hard work and dedication of the entire Water Department, New Orleans' drinking water has met all federal and state drinking water standards since the Environmental Protection Agency established regulations in the 1980s. A "Quality Water" report is mailed to all customers each year.

June 30, 2010

THE HONORABLE PRESIDENT AND MEMBERS OF THE
SEWERAGE AND WATER BOARD OF NEW ORLEANS

We are pleased to present the Comprehensive Annual Financial Report of the Sewerage and Water Board of New Orleans for the year ended December 31, 2009. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests solely with the Sewerage and Water Board. To the best of our knowledge and belief, the accompanying data, as presented, is accurate in all material aspects and is presented in a manner designed to fairly present the financial position, results of operations, and cash flows of the Board's Enterprise and Pension Trust Funds. All disclosures necessary to enable the reader to gain an understanding of the Sewerage and Water Board's financial activities have been included.

COMPREHENSIVE ANNUAL FINANCIAL REPORT SECTIONS

The Comprehensive Annual Financial Report is presented in four (4) major sections: Introductory, Financial, Statistical and Supplemental. The Introductory Section includes the transmittal letter and listings of the officers, members and committees of the Board of Directors. This section also includes the Board's organizational chart and a reproduction of the 2008 Certificate of Achievement for Excellence in Financial Reporting awarded by the Government Finance Officers Association. The Financial Section includes the independent auditors' report, along with the basic financial statements, required supplementary information, accompanying notes and other supplementary information. The individual fund statements for the Enterprise and Pension Trust Funds are included. Required supplementary includes management's discussion and analysis and a schedule of pension funding progress and contributions. The Statistical Section includes selected financial and demographic information, generally in a multi-year presentation. Additional information relative to the Sewerage and Water Board's operations is included in a Supplemental Section.

The independent audit of the financial statements of the Sewerage and Water Board was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the Sewerage and Water Board's separately issued Single Audit Report.

The Sewerage and Water Board meets the criteria for classification as an "other stand-alone government" as described in Governmental Accounting Standards Board Statement No. 14. The reporting entity includes the Enterprise Fund and the Pension Trust Fund. The Enterprise Fund is composed of three (3) independent systems: Water, Sewerage and Drainage. The Board adopted Governmental Accounting Standards Board Statement No. 34 – Basic Financial Statements – Management's Discussion and Analysis – for State and Local Government in 2002. The Board has adopted Governmental Accounting Standards Board Statement No. 45 - Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions in 2007.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Sewerage and Water Board's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE SEWERAGE AND WATER BOARD OF NEW ORLEANS

Sewerage and Water Board of New Orleans is a political subdivision created in 1899 by Louisiana State Statutes. The Sewerage and Water Board was established as a "special board" operating independently of city government. The Mayor of New Orleans serves as the President of the Board of Directors which is composed of three (3) representatives of the City Council, two (2) representatives of the Board of Liquidation, City Debt and seven (7) appointees as designated by the State statutes. The Board is charged with construction, operation, and maintenance of Water, Sewerage and Drainage Systems for the City of New Orleans. By agreement, approximately 2,550 acres of adjoining Jefferson Parish is served by the Board's drainage facilities for which Jefferson Parish pays its pro rata share of expenses. In addition, the Board provides sewerage services to Jefferson Parish businesses, the majority of which are restaurants located in the West End neighborhood near the Lakefront. Additionally, the Board provides water and sewerage services to the Plaquemines Parish Industrial Park.

ECONOMIC CONDITION AND OUTLOOK

According to the September 2009 Metropolitan Report: Economic Indicators for the New Orleans Area prepared by the Division of Business and Economic Research, University of New Orleans, 1,800 jobs (or 0.3%) were lost from New Orleans area employment in the last year. This follows a year when 14,800 jobs were added. Though this loss is small, it may be taken as a sign that the national economic recession has reached New Orleans. The fact that the loss is so small compared to the national loss of 4.2% of all jobs during the same time period points to a combination of recovery growth still going on in some sectors while recessionary factors force contraction in others.

The current total number of jobs in the New Orleans area is 519,500. This means that 93,700 jobs have been recovered and retained in the New Orleans area since the lowest point in the autumn of 2005. According to the report, 85,000 jobs need to be recovered before old pre-Katrina levels would be reached. Job growth is anticipated to be sluggish as the national recession gradually lifts with some support from remaining recovery spending.

The dollar value of contracts let for roads and levees as well as commercial buildings are still above twice their pre-Katrina level, at 193% and 231% respectively; however, residential construction has slowed and now shows up as one of the worst performing sectors, currently at about 67% of old levels.

Tourism has been one of the slowest segments of the local economy to recover. Though there has been a general upward trend, some of the tourism indicators are some of the most damaged 4 years later. Accommodation employment at 74% recovered remains the most damaged employment sector. Airport capacity in seats is only at 69%. It was higher, hitting 80% last summer but was a victim of national trends which included a regional airline ExpressJet going out of business and a national push among airlines to fly with less empty seats.

The port is showing a growth this year to reach 119% of export tonnage; however, imports of steel and other goods, import tonnage remains at only 77% old levels. Airport cargo tonnage remains one of the most heavily damaged indicators at only 64% of old levels.

In Orleans Parish, earnings and taxable sales are trending upwards; flirting with 100% of old levels but the number of jobs and people are just approaching 70%. Public school enrollment is barely 50%, which hints at major shifts in demographic in the City of New Orleans that proportionally has fewer children than it used to have.

WATER SYSTEM MAJOR INITIATIVES

Carrollton Water Purification Plant:

Design for a new disinfection storage and feed facility is completed. This project, which replaces chlorine delivered in rail cars with sodium hypochlorite, includes bulk storage and pumping facilities for hypochlorite, the addition of a second disinfectant addition point, and some water plant SCADA system improvements. This project is being financed through the Department of Health and Hospital State Revolving Loan Program and ARRA stimulus funding will result in \$1,000,000 of principal forgiveness for the S&WB. When complete, the Carrollton Plant will no longer house 55 ton rail cars of chlorine, significantly reducing the risk of exposure to the plant staff and the surrounding community and environment to a toxic chlorine release.

Overhaul of flocculation-sedimentation basin G3 is near completion. A new complete flocculation drive system was installed. Also, improvements to the mono-rake system will increase the efficiency of sludge removal from the sedimentation basin.

Improvements to the high lift flow measuring system are ongoing. Degassing valves have been installed on some of the units, which are now providing reliable flow measurement. Outstanding repairs include the damaged/plugged venturi plumbing and repair or replacement of the pump infrastructure.

A second sludge line to the river is currently in the design phase. This will add redundancy and flexibility to the operations.

The Board is performing in-house repairs to the L4 flocculation equipment and mono-rake system. The Welding and Fabrication Shop and the Machine Shop anticipate the work to be completed by the second quarter of 2010.

Algiers Water Purification Plant

The installation of a sodium hypochlorite generation system is complete and the equipment has been in service since April 2009. This system is currently supporting the daily normal plant needs for disinfectant in the potable water treatment process. The use of ton cylinders of chlorine has been discontinued at this facility significantly reducing the risk of exposure to the plant staff and the surrounding community and environment to a toxic chlorine release.

The ferric sulfate storage and feed equipment was moved from the old river station to a temporary location within the Algiers Plant. A new bulk storage containment structure has been built within the plant. Efforts are currently underway to begin moving part of the storage and feed equipment into this new facility.

Water Pumping & Power

The total capacity of the plant is 41 MW. Turbine 4 (20 MW) was rebuilt and is available for emergency use at an estimated reduced capacity of 12 MW. Design is underway to replace the steam path, rotor and condenser, install 8 transmitters, update the governor control system and replace the turbine with 25Hz motor on the condensate pump. The project is scheduled to bid in mid-2010.

A new Boiler No. 2 was installed November 2009. The repair of turbine 4 with the new boiler shall return the power plant to the original potential capacity of 61 MW.

The local power company is continuing design of a new high-pressure natural gas line into the power plant. The new line will eliminate the need for the gas compressors located at the power plant. The project is scheduled to be constructed by November 2010.

The New River Intake Station is operational and has sufficient capacity to supply the raw water requirements for the Carrollton Water Purification Plant. The Oak River Intake Station is currently out of service for repairs to the pumps, switchgear and intake pipes.

Specifically for the New River Intake Station, all three raw water pumps have been returned to service. One pump has been refurbished with new pump bearings, line shaft bearing, couplings etc. whereas the other two pumps have yet to be refurbished. One of the three pump motors has been refurbished. FEMA is funding the repair or replacement of the suction, discharge and check valves.

The three high lift pump stations are operational. The Claiborne High Lift Pump Station and the DeLaval steam driven turbine located at the power plant are of sufficient capacity to meet the finished water requirements. The second DeLaval steam driven distribution pumps is scheduled for reconditioning. FEMA is funding the repair of both pumps. The Panola Street High Lift Pump Station serves as a backup in the event of an emergency.

The Corps of Engineers initiated construction of a new 15 MW, 60-Hertz gas turbine generator in November 2009. The \$31.2 M project shall supplement the current power available from Entergy to serve the water treatment plant and the raw water intake stations.

The Corps of Engineers has several projects in design for the power plant including construction of an I-wall around the power plant and other critical water treatment plant assets to protect against flooding, storm proofing the buildings contained in the power plant, the Oak River and New River Intake Stations, and the building housing the frequency changer.

Water Distribution System:

The leak detection program continues to utilize Permalog Leak Detectors to locate leaks in the distribution network for repairs. In 2009, the Permalogs were installed in New Orleans East. Some still remain in the original piloted area in the Central Business District and succeeding area of the Lower Ninth Ward. Over 2400 detectors are currently located in water distribution system.

The leak detection program also utilized the Smartball to investigate 15 miles of water mains. The device is effective but very labor intensive in its requirement of a shutdown to insert the tool.

Over 11,000 service requests were responded to in 2009. These included investigations of 382 water leaks, inspection of 715 water values, repairs to 8,951 water services lines, 1,989 water mains, 605 valves and 47 water manholes. Additionally, staff removed 9,517 water meters and installed 727 new water meters.

Preventative maintenance of fire hydrants is continuing in coordination with the local fire department. Of the 16,500 fire hydrants mapped, the Board performed preventative maintenance for 2,021.

The Board is continuing to coordinate with the City of New Orleans Department of Public Works (DPW) in repair/replacement of water lines associated with the Submerged Roads Program.

SEWER SYSTEM MAJOR INITIATIVES

East Bank Wastewater Treatment Plant:

All buildings have been repaired including a new control room equipped with a state of the art SCADA system for oversight and control of plant processes. The administration building containing the laboratory was destroyed by floodwaters and demolished. The laboratory analyses are being performed off site, while the administrative offices are being housed in office trailers. Currently a new administration building with laboratory is at the 30% level of design.

With the exception of the backup multiple hearth incinerator and the cryogenic oxygen production facility, all pre-disaster equipment has been repaired and is operational including all eight final clarifiers. The oxygen reactors have been restored to full functionality providing essential secondary treatment.

At present, a Vacuum Swing Adsorption (VSA) oxygen production plant capable of producing 70 tons of oxygen at greater than 93% purity has been purchased and is in the fabrication phase of the project. Shipment and delivery is expected to begin in October 2010 with an estimated completion and start up of April 2011. Oxygen is currently trucked in at significant cost and the new oxygen production facility will significantly reduce expenses. Currently the oxygen reactors require a consumption of approximately 30-tons per day.

FEMA has reviewed and approved a sludge dryer system as an alternative method of sludge disposal and backup to the Fluid Bed Incinerator (FBI). This sludge processing equipment is in the preliminary and pre-bid phase of the project. This initiative involves the procurement and installation of a ten (10) dry ton per day sludge dryer to blend into the existing sludge stream prior to incineration. The resulting sludge quality will be greater than 33% Total Solids (TS) allowing for an autogenous burn, which will require fuel only for start ups, greatly reducing diesel and natural gas expenses. The project shall be advertised for design in 2010.

Two new gravity thickener and belt filter press combination units have been installed in addition to the two existing belt presses. The new units have increased the sludge cake dryness from ~22% TS to slightly greater than 24% TS. The increased dryness has led to significant reductions in diesel and natural gas expenses to incinerate the sludge.

At present, the influent TSS and BOD concentration are approximately 130 milligrams per liter (mg/L) and 95 mg/L, respectively. This is significantly lower than normal concentrations, which is probably the result of a significant increase in the amount of inflow infiltration in the collection system following the hurricane requiring treatment at the plant. Effluent quality has been good over the year, with zero permit violations or process overflows in 2009.

A new 4-MW diesel generator was purchased in August 2009 to provide backup power for the wastewater treatment plant. Design of the generator building is underway.

Construction of the building and installation of the generator is scheduled to be bid in early 2010.

Biodiesel is being investigated as a green energy alternative to diesel fuel currently utilized at the plant. A pilot is proposed to use biodiesel and track the expected cost savings relative to energy and operations and maintenance.

The Board was successful in appealing FEMA to fund the mitigation effort to the berm around the wastewater treatment plant. Design of an earthen/structural berm is underway. Construction is tentatively scheduled to begin in late 2010.

West Bank Wastewater Treatment Plant:

A new in-plant drainage pumping station has been installed, greatly improving the plant drainage capacity. All plant runoff is collected in this system and is returned to the treatment process and ultimately pumped to the Mississippi River.

A new gaseous chlorine handling system was installed including a new chlorinator, automatic shutoffs, leak detectors, and alarms.

Major overhauls were completed to the effluent pumping system, including replacement of the rotating units for the two large 12-MGD pumps.

A new solids treatment building and belt filter press is currently at 65% level of design for the plant.

A new sodium hypochlorite system including tanks and pumps is at 65% level of design.

A new chemical (BioCat) is used instead of hydrogen peroxide for odor control in the collection system. A significant benefit has been realized in the effluent quality of the trickling filter plant since the new chemical does not adversely impact the biofilm in the trickling filter, although the chemical cost is approximately 20% higher than using hydrogen peroxide.

Sewage Pumping and Lift Stations:

All the sewer pump stations are operational; however some facilities are continuing to utilize temporary pumps. The majority of the stations require rehabilitation, i.e., electrical repair, bearing replacement, and flood proofing. Approximately 40% of the electrical work has been completed. Bearing repair work has not been initiated, and the final phase of flood proofing has not started to date.

FEMA is funding repairs to the sewer pump stations to pre-Katrina conditions. Designs for the repair and/or replacement to 62 stations are underway. Construction contracts shall be awarded in the first quarter of 2010 and construction completed by the end of the 2010 or early 2011 for the majority of the stations.

Construction of the replacement of Michoud Sewer Pump Station was completed. The facility was commissioned in November 2009.

The Board is proposing FEMA fund the installation of transfer switches at the sewage pumping stations. The switch will provide the ability for the pumps to be powered by a generator in the event of electrical power loss.

Hazard Mitigation Funds have been provided to elevate eight sewer pump stations and ensure continuous operations during flooding events. Preliminary design reports shall be submitted in early 2010 for review and comment.

Sewer Collection System:

Sewer rehabilitation projects were completed in the Mid-City and Lower Ninth Ward areas.

Construction projects for replacement of sewer mains from manhole to manhole for various sites throughout Orleans Parish were awarded. Design projects are continuing for multiple point repair and replacement of sanitary sewers in the Carrollton, Lower Ninth Ward and Mid-City areas. Construction for these projects shall be completed by 2015.

The Board is continuing to coordinate with DOTD and DPW in repair of sewer lines associated with the Submerged Roads Program

Preventative maintenance of the collection system included inspection of 896,750 feet of sewer line utilizing closed circuit television and smoke testing, cleaning of 1,019,777 ft. of the sewer system, inspection of 7,415 sewer manholes and repairs to 3,089 sewer breaks. Thirty-three air release valves were inspected and maintained and 168 force main isolation valves were inspected and exercised. Alignment inspection of 102 miles of the force main was also accomplished.

Cathodic protection survey is performed annually on the 22 systems in place in the collection system. Staff is seeking FEMA support in repairing the systems damaged as a result of Katrina.

DRAINAGE SYSTEM MAJOR INITIATIVES

Pump Stations:

All 24 drainage and 12 underpass pumping stations have been maintained and are operational. Most motors have been rewound and are in service within the drainage stations.

The Board has been able to perform in-house fabrication of stop logs, repair the vertical pumps and two sluice gates that have been out of service since Katrina at Drainage Pumping Station (DPS) 19, repair "D" pump impeller by welding 5 out of 8 blades at DPS 3 and repair failed #1 screen cleaner at DPS 6.

The Corps has committed \$204 M for storm-proofing projects at potentially 22 of the drainage pump stations. Design is underway for procurement and installation of two 200 cfs pumps a generator at DBS 5, a new building to house a generator at DPS 20, and electrical, mechanical and structural upgrades to the other stations.

The \$58.8 M expansion of Dwyer Road Pumping Station from 125 cfs to 1000 cfs is still in construction. The project is 100% federally funded and scheduled to be completed in the spring of 2010.

The replacement of the Elaine Pumping Station was awarded in July 2009. The \$3.2 M Corps project is scheduled to be completed in 2011.

The Board has been working with the Corps and the Coastal Restoration and Recovery Authority to review the amendment to the project partnership agreement and the request for proposal for the design build of three new permanent pump stations at 17th Street, Orleans and London Canal at Lake Pontchartrain. The \$804 M project would provide both frontal protection and allow for easier and more efficient pumping of water to the Lake.

Drainage System:

Dwyer Road Intake Canal is currently under construction. The \$58.8 M project is 100% federally funded and consists of 6,800 linear feet of new concrete boxed culvert into the Dwyer Road Pumping Station.

Florida Avenue Canal Phase I proposals for construction were received by the Corps November 2009. The \$49.2 M project is 100% federally funded and consists of an open concrete canal within the Florida Avenue right of way between

Mazant Street and Drainage Pump Station # 19. Phase I is expected to be awarded in January 2010 for completion by late 2011. Florida Avenue Canal Phases II and III from Peoples Avenue to Mazant Street are currently under design.

Other Southeast Louisiana Urban Flood Control Program (SELA) projects under design include Napoleon Avenue Canal Phases II and III from South Claiborne Avenue to Carondelet Street, Claiborne Avenue Canal Phases I and II from Monticello Street to Lowerline Street, Jefferson Avenue Canal Phase I and II and Louisiana Avenue Canal, both from South Claiborne Avenue to Constance Street.

Louisiana DODT awarded in December 2009 the installation of drainage pipe, asphalt overlay and related work on General Degaulle Drive at its intersection with Wall Boulevard, Life Center Drive, Seine Court, Westbend Parkway, Behrman Place and MacArthur Boulevard. The design, funded by the Board will provide for improved drainage and flood control in the six locations. The \$21 M construction (partially funded by the Board) is scheduled to be complete by mid-2012.

A five-year Capital Program budget of \$2,924,297,000 was approved by Sewerage and Water Board in December 2009. The approved amount for Drainage projects was \$2,259,097,000, of that amount; \$1,666,273,000 is participation by others.

FINANCIAL INFORMATION

Management of the Sewerage and Water Board is responsible for designing and maintaining an internal control structure sufficient to safeguard the Board's assets against loss, theft or misuse and to ensure the reliability of financial records for preparing financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute assurance that these goals are met. The concept of reasonable assurance recognizes that: (1) the cost of internal controls should not exceed the benefits expected to be derived and (2) the valuation of costs and benefits require the exercise of judgment by management.

The Enterprise Fund's water and sewerage systems are financed by user fees. The unique characteristics of the services provided by the Drainage System of New Orleans requires the use of Enterprise Fund accounting in order to obtain a meaningful measure of the cost of providing the services and capital maintenance. On March 21, 2007, the Board approved a series of five annual water rate increases beginning with the first increase on November 1, 2007 followed by four additional increases to be implemented on July 1 of each year, 2008 through 2011. The New Orleans City Council approved the annual water rate increases on October 4, 2007. Revenues from the three- (3) mill, six- (6) mill, and nine- (9) mill ad valorem taxes, which are restricted exclusively for drainage services, finance the Drainage System. These ad valorem taxes are the operating revenues of the drainage system.

Budgetary Control:

The Sewerage and Water Board maintains an internal budgetary control through the preparation and monitoring of an annual operating and capital budget for the Water, Sewerage, and Drainage funds. Monthly budget reports are provided to department level managers to assist them in their fiscal responsibilities.

General Operations:

The change in net assets for the year ended December 31, 2009 was an increase of approximately \$68.3 million, as opposed to a decrease in net assets of approximately \$50.1 million for the year ended December 31, 2008. The Board's total operating revenues increased by 11.1% to approximately \$121.1 million, and total operating expenses decreased 3.4% to approximately \$165.4 million. The decrease in power and pumping expenses in 2009 of approximately \$1.2 million or 8.7% is primarily due to a decrease in cost of natural gas. The increase in payroll related expenses in 2009 of \$3.5 million of 11.2% is primarily due to salary increases in accordance with City of New Orleans Civil Service and an increased number of employees.

Debt Administration:

The Board of Liquidation, City Debt has responsibility for the administration of the Board's debt. Drainage debt services payments are supported by ad valorem tax collections, while user fees are used to provide debt services for the Water and Sewerage System bonds. The Board's Sewerage and Water and Drainage bonds outstanding as of December 31, 2009 totaled \$242,330,000.

Other Information:

State Statutes and covenants governing outstanding bond issues require an annual audit of the Board's financial records by independent certified public accountants. The accounting firm of Postlethwaite & Netterville was selected by the Board to perform this audit through a competitive bid process. The independent auditors' report on the basic financial statements is included in the Financial Section of the report. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Sewerage and Water Board of New Orleans for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2008. The Certificate of Achievement is a prestigious national award-recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such CAFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one (1) year only. The Sewerage and Water Board of New Orleans has received a Certificate of Achievement for twenty-six (26) years. We believe our current report continues to conform to the Certification of Achievement Program requirements and we are submitting it to GFOA.

ACKNOWLEDGMENTS

The Comprehensive Annual Financial Report was prepared by the dedicated staff of the Director's Office, particularly the Finance Administration and Printing Department. Additionally, we realize that the cooperation of each Department of the Sewerage & Water Board of New Orleans is essential, and we appreciate the willingness to work together toward this endeavor.

We also wish to thank the members of the Board for their interest and support in our efforts to achieve greater fiscal efficiency and accountability.

Yours very truly,

Marcia A. St. Martin

FINANCIAL SECTION

When one of the pumps at Drainage Pumping Station No. 3 began to "chatter" and make a loud noise, it was discovered that 5 of the 8 impeller blades were cracked. The Board's own employees from Facility Maintenance disassembled the pump, gouged out the cracked areas and weld-repaired the blades. Additional work was done on the shaft while the casing was off. The pump, which has been in service for more the 80 years, was reassembled, test run and put back in service. The station is located at North Broad and London Avenue. On many jobs, the Board's employees can make repairs more cheaply and quickly than contractors not as familiar with the Board's complex machinery.

INDEPENDENT AUDITORS' REPORT

Members of the Board
Sewerage and Water Board of New Orleans:

We have audited the basic financial statements of the Sewerage and Water Board of New Orleans (the Board) as of and for the years ended December 31, 2009 and 2008, as listed in the table of contents. These basic financial statements are the responsibility of the Board's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Board's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Board as of December 31, 2009 and 2008, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2010, on our consideration of the Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audits.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages II-3 through II-14 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Board's financial statements as a whole. The introductory section, Schedules 1 through 6, the Statistical Information section, and Supplementary Information section are presented for purposes of additional analysis and are not a required part of the financial statements. Schedules 1 through 6 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The Statistical Information and Supplementary Information sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

A handwritten signature in black ink, reading "Postlethwaite + Netterville". The signature is written in a cursive, flowing style.

SEWERAGE & WATER BOARD OF NEW ORLEANS

MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2009

This section of the Sewerage & Water Board of New Orleans' (the Board) annual financial report presents a discussion and analysis of the Board's financial performance during the fiscal year that ended December 31, 2009. Please read it in conjunction with the Board's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

Recovery from Hurricane Katrina and the resulting flooding continued to be the most significant event to occur during 2009. Repairs to water, sewerage, and drainage systems, building repairs, and vehicle and equipment replacements continued throughout 2009.

Enterprise Fund

The major highlights in the Board's enterprise fund were as follows:

2009

- The Board's additions to its major systems approximated \$130.4 million.
- The SELA project which is a major upgrade to the drainage system by the Corps of Engineers resulted in additions of approximately \$23.9 million to work in progress during the year.
- Federal Emergency Management Agency (FEMA) Disaster Public Assistance grants expended totaled approximately \$49.9 million, of which approximately \$30.5 million were capital contributions and approximately \$19.4 million were for operating and maintenance expenses.
- The Board refunded the \$24,030,000 Sewerage Service Refunding Bond Anticipation Notes, Series 2006, using the proceeds of the \$23,375,000 Sewerage Service Revenue Refunding Bonds Series 2009 and \$2,161,565 of excess debt service reserve funds. As part of the refunding, the Board paid \$1,172,452 of bond costs, which are amortizable through the date of maturity of the bonds. The bonds are secured by a pledge of revenues of the Sewerage Fund.

2008

- The Board's additions to its major systems approximated \$76.1 million.
- The SELA project which is a major upgrade to the drainage system by the Corps of Engineers continued to be postponed during 2008 with no additions to work in progress recorded during the year.
- Federal Emergency Management Agency (FEMA) Disaster Public Assistance grants expended totaled \$16.0 million, of which approximately \$16.0 million were capital contributions and approximately \$25,000 were for operating and maintenance expenses.

Pension Trust Fund

2009

The major highlight in the Board's pension trust fund was the strengthening financial performance in the stock market as compared to 2008 and the resulting appreciation of \$29.0 million in the market value of the investments held by the plan during 2009, as opposed to the depreciation of \$60.7 million in the market value of the investments during 2008. The plan net assets available for benefits increased to \$184.8 million.

2008

The major highlight in the Board's pension trust fund was the weakening financial performance in the stock market as compared to 2007 and the resulting depreciation of \$60.7 million in the market value of the investments held by the plan during 2008, as opposed to the appreciation of \$5.2 million in the market value of the investments during 2007. The plan net assets available for benefits decreased to \$162.4 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This financial report consists of five parts: management's discussion and analysis (this section), the financial statements, the notes to the financial statements, required supplementary information, and other supplementary information.

Government-wide Financial Statements – Enterprise Fund

The Board's principal activities of providing water, sewerage, and drainages services are accounted for in a single proprietary fund – the enterprise fund. Enterprise funds are used to report business activities. Since the enterprise fund is the Board's single activity, its financial statements are presented as the Board's government-wide financial statements.

The financial statements provide both long-term and short-term information about the Board's overall financial status. The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information and other supplementary information that further explain and support the information in the financial statements.

The Board's financial statements are prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. Under this basis of accounting, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, and depreciation of assets is recognized in the Statements of Revenues, Expenses, and Changes in Net Assets. All assets and liabilities associated with the operation of the Board are included in the Statements of Net Assets.

The Statement of Net Assets reports the Board's net assets. Net assets - the difference between the Board's assets and liabilities - are one way to measure the Board's financial health or position.

Fund Financial Statements – Pension Trust Fund

The Board's fund financial statements consist of its pension trust fund. As a fiduciary fund, the pension trust fund is held for the benefit of employees and retirees of the Board. The pension trust fund is not reflected in the government-wide financials because the resources are not available to the Board for its activities. The accounting for the pension trust fund is much like that used by the enterprise fund.

FINANCIAL ANALYSIS OF THE BOARD'S

ENTERPRISE FUND

2009 Net Assets

The Board's total assets at December 31, 2009 were approximately \$1.8 billion, a 3.9% increase from December 31, 2008 (see Table A-1).

Table A-1				
Sewerage & Water Board of New Orleans				
Net Assets				
	2009	2008	Increase (Decrease)	Increase (Decrease)
Current unrestricted assets	\$ 96,709,930	\$ 85,536,897	\$ 11,173,033	13.1%
Restricted assets	128,818,918	164,746,871	(35,927,953)	-21.8%
Property, plant and equipment - net	1,604,392,342	1,509,805,388	94,586,954	6.3%
Other assets	2,174,276	1,698,192	476,084	28.0%
Total assets	\$ 1,832,095,466	\$ 1,761,787,348	\$ 70,308,118	4.0%
Current liabilities	\$ 126,535,376	\$ 152,039,186	\$ (25,503,810)	-16.8%
Long-term liabilities	398,993,489	374,212,806	24,780,683	6.6%
Total liabilities	525,528,865	526,251,992	(723,127)	-0.1%
Net assets:				
Invested in capital assets, net of related debt	1,367,130,463	1,306,085,162	61,045,301	4.7%
Restricted	(60,563,862)	(70,549,806)	9,985,944	-14.2%
Total net assets	1,306,566,601	1,235,535,356	71,031,245	5.7%
Total liabilities and net assets	\$ 1,832,095,466	\$ 1,761,787,348	\$ 70,308,118	4.0%

The increase in total assets of \$70.3 million resulted primarily due to an increase in property, plant, and equipment of \$94.6 million, offset by a decrease in investments restricted for construction of \$47.2 million. Current liabilities decreased by \$25.5 million, and long-term liabilities increased by \$24.8 million in 2009, as compared to 2008 due to the refunding of the Sewer Revenue Bonds Anticipation Notes, Series 2006, in the amount of \$24.0 million and the issuance of the Sewer Service Revenue Refunding Bonds, Series 2009, in the amount of \$23.3 million.

2008 Net Assets

The Board's total assets at December 31, 2008 were approximately \$1.8 billion, a 1.6% decrease from December 31, 2007 (see Table A-1).

Table A-2 Sewerage & Water Board of New Orleans Net Assets				
	2008	2007	Increase (Decrease)	Increase (Decrease)
Current assets	\$ 85,536,897	\$ 130,654,155	\$ (45,117,258)	-34.5%
Restricted assets	164,746,871	191,182,517	(26,435,646)	-13.8%
Property, plant and equipment - net	1,509,805,388	1,465,225,933	44,579,455	3.0%
Other assets	1,698,192	4,185,361	(2,487,169)	-59.4%
Total assets	\$ 1,761,787,348	\$ 1,791,247,966	\$ (29,460,618)	-1.6%
Current liabilities	\$ 152,039,186	\$ 115,274,616	\$ 36,764,570	31.9%
Long-term liabilities	374,212,806	390,323,513	(16,110,707)	-4.1%
Total liabilities	526,251,992	505,598,129	20,653,863	4.1%
Net assets:				
Invested in capital assets, net of related debt	1,306,085,162	1,265,078,240	41,006,922	3.2%
Restricted	(70,549,806)	20,571,597	(91,121,403)	-442.9%
Total net assets	1,235,535,356	1,285,649,837	(50,114,481)	-3.9%
Total liabilities and net assets	\$ 1,761,787,348	\$ 1,791,247,966	\$ (29,460,618)	-1.6%

The decrease in total assets of \$29.5 million resulted primarily from a write off of \$48.0 million of FEMA receivables due to prior expenditures currently in dispute and subject to appeal or expenditures that were disallowed by FEMA, offset by an increase in property, plant, and equipment of \$44.6 million due to \$16.5 million in construction funds expended and \$18.1 million of capital contributions less the annual provision for depreciation of \$31.5 million, payments made on bonds of \$12.6 million offset by new loans of \$12.8 million borrowed through the Debt Service Assistance program, and an overpayment of FEMA grant funds in the amount of \$21.1 million. Current liabilities increased by \$36.8 million and long-term liabilities decreased by \$16.1 million in 2008 as compared to 2007 due primarily to debt service payments made on bonds offset by additional debt from the Debt Service Assistance Fund loan and an overpayment of FEMA grant funds of \$21.1 million.

2009 Changes in Net Assets

The change in net assets for the year ended December 31, 2009 was an increase of approximately \$71.0 million, as opposed to a decrease in net assets of approximately \$50.1 million for the year ended December 31, 2008. The Board's total operating revenues increased by 11.1% to approximately \$121.1 million, and total operating expenses decreased 3.4% to approximately \$165.4 million. The changes in net assets are detailed in Table A-3; operating expenses are detailed in Table A-4.

Table A-3				
Sewerage & Water Board of New Orleans				
Revenues, Expenses and Change in Net Assets				
	2009	2008	Increase (Decrease)	Increase (Decrease)
Operating revenues:				
Charges for services	\$ 117,264,448	\$ 106,463,582	\$ 10,800,866	10.1%
Other	3,814,564	2,487,983	1,326,581	53.3%
Total operating revenues	121,079,012	108,951,565	12,127,447	11.1%
Operating expenses (Table A-3)	165,407,457	171,174,171	(5,766,714)	-3.4%
Operating loss	(44,328,445)	(62,222,606)	17,894,161	28.8%
Non-operating revenues:				
Property taxes	36,198,099	39,702,436	(3,504,337)	-8.8%
Other taxes	371,006	515,735	(144,729)	-28.1%
Operating and maintenance grants	19,373,185	(3,973)	19,377,158	-487721.1%
Investment income (expense)	(880,830)	1,825,534	(2,706,364)	-148.3%
Total non-operating revenues	55,061,460	42,039,732	13,021,728	31.0%
Income before capital contributions	10,733,015	(20,182,874)	30,915,889	-153.2%
Capital contributions	60,298,230	(29,931,607)	90,229,837	-301.5%
Change in net assets	71,031,245	(50,114,481)	121,145,726	-241.7%
Net assets, beginning of year	1,235,535,356	1,285,649,837	(50,114,481)	-3.9%
Net assets, end of year	\$ 1,306,566,601	\$ 1,235,535,356	\$ 71,031,245	5.7%

Property taxes decreased by \$3.5 million in 2009 due to uncollected prior year receivables written off in 2009.

Capital contributions from federal grants and construction of Board property was approximately \$60.3 million resulting primarily from capital additions reimbursable under the FEMA Disaster Public Assistance grant of approximately \$30.5 million and approximately \$23.9 million of capital contributions by the Army Corps of Engineers. In 2008, the Board had grant revenues of approximately \$18.1 million offset by a write off of approximately \$48.0 million of receivables due to FEMA Disaster Public Assistance grant expenditures that were disallowed or currently in dispute and subject to appeal. Operating and maintenance grants increased to \$19.4 million in 2009 due to the reimbursement of current and prior year expenses for water system point repairs under the FEMA Disaster Public Assistance grant.

Table A-4				
Sewerage & Water Board				
Operating Expenses				
	2009	2008	Increase (Decrease)	Increase (Decrease)
Power and pumping	\$ 12,950,788	\$ 14,178,641	\$ (1,227,853)	-8.7%
Treatment	9,910,557	18,243,782	1,666,775	9.1%
Transmission and distribution	21,466,523	18,994,209	2,472,314	13.0%
Customer accounts	3,044,936	2,719,594	325,342	12.0%
Customer service	3,417,239	3,323,696	93,543	2.8%
Administration and general	13,504,125	15,173,190	(1,669,065)	-11.0%
Payroll related	35,085,953	31,549,622	3,536,331	11.2%
Maintenance of general plant	24,828,902	33,455,074	(8,626,172)	-25.8%
Depreciation	34,692,628	31,546,017	3,146,611	10.0%
Amortization	140,917	158,019	(17,102)	-10.8%
Provision for doubtful accounts	(3,693,971)	1,244,862	(4,938,833)	-396.7%
Provision for claims	58,860	587,465	(528,605)	-90.0%
Total operating expenses	\$ 165,407,457	\$ 171,174,171	\$ (5,766,714)	-3.4%

The decrease in power and pumping expenses in 2009 of approximately \$1.2 million or 8.7% is primarily due to a decrease in cost of natural gas. The increase in treatment expenses in 2009 of \$1.7 million or 9.1% is primarily due to an increase in the costs of chemicals. The increase in transmission and distribution expenses in 2009 of \$2.4 million or 13.0% is primarily due to an increase in contractor cost and materials. The increase in payroll related expenses in 2009 of \$3.5 million or 11.2% is primarily due to salary increases in accordance with City of New Orleans Civil Service and an increased number of employees. The decrease in maintenance of general plant in 2009 of \$8.6 million or 25.8% resulted primarily from lack of personnel to address repairs and lacks of fund to purchase parts and material. Provisions for doubtful accounts decreased by approximately \$4.9 million, or 396.7%, in 2009 as a result of fewer new closed accounts in 2009 as well as the collection of accounts written off in prior years. Provisions for claims decreased by \$528 thousand in 2009, as compared to 2008. Claims expense varies due to the number and severity of the claims during any period. The decrease is due primarily to a decrease in reserves recognized during 2009 offset by claims payments made during 2009.

2008 Changes in Net Assets

The change in net assets for the year ended December 31, 2008 was a decrease of approximately \$50.1 million, as opposed to an increase in net assets of approximately \$64.0 million for the year ended December 31, 2007. The Board's total operating revenues decreased by 0.6% to approximately \$109.0 million, and total operating expenses increased 7.0% to approximately \$171.2 million. The changes in net assets are detailed in Table A-3; operating expenses are detailed in Table A-4.

	2008	2007	Increase (Decrease)	Increase (Decrease)
Operating revenues:				
Charges for services	\$ 106,463,582	\$ 106,642,409	\$ (178,827)	-0.2%
Other	2,487,983	2,927,070	(439,087)	-15.0%
Total operating revenues	108,951,565	109,569,479	(617,914)	-0.6%
Operating expenses (Table A-3)	171,174,171	159,967,931	11,206,240	7.0%
Operating loss	(62,222,606)	(50,398,452)	(11,824,154)	-23.5%
Non-operating revenues:				
Property taxes	39,702,436	36,667,904	3,034,532	8.3%
Other taxes	515,735	443,122	72,613	16.4%
Operating and maintenance grants	(3,973)	1,777,188	(1,781,161)	-100.2%
Hurricane gain	-	205,995	(205,995)	-100.0%
Investment income (expense)	1,825,534	3,383,157	(1,557,623)	-46.0%
Total non-operating revenues	42,039,732	42,477,366	(437,634)	-1.0%
Income before capital contributions	(20,182,874)	(7,921,086)	(12,261,788)	154.8%
Capital contributions	(29,931,607)	71,955,106	(101,886,713)	-141.6%
Change in net assets	(50,114,481)	64,034,020	(114,148,501)	-178.3%
Net assets, beginning of year	1,285,649,837	1,221,615,817	64,034,020	5.2%
Net assets, end of year	\$ 1,235,535,356	\$ 1,285,649,837	\$ (50,114,481)	-3.9%

Property taxes increased by \$3.0 million in 2008 due to an increase in assessed value offset by a decrease in the millage.

Capital revenue from federal grants and construction of Board property was approximately (\$29.9) million as a result of grant revenues of approximately \$18.1 million offset by a write off of approximately \$48.0 million of receivables due to FEMA Disaster Public Assistance grant expenditures that were disallowed or currently in dispute and subject to appeal. Operating and maintenance grants decreased by 100.2% to (\$3,973). Capital contributions and operating and maintenance grants are primarily related to FEMA Disaster Public Assistance grants.

Table A-6 Sewerage & Water Board Operating Expenses				
	2008	2007	Increase (Decrease)	Increase (Decrease)
Power and pumping	\$ 14,178,641	\$ 13,041,954	\$ 1,136,687	8.7%
Treatment	18,243,782	16,280,975	1,962,807	12.1%
Transmission and distribution	18,994,209	19,832,226	(838,017)	-4.2%
Customer accounts	2,719,594	2,290,092	429,502	18.8%
Customer service	3,323,696	2,670,145	653,551	24.5%
Administration and general	15,173,190	14,899,028	274,162	1.8%
Payroll related	31,549,622	28,259,815	3,289,807	11.6%
Maintenance of general plant	33,455,074	26,993,626	6,461,448	23.9%
Depreciation	31,546,017	25,377,733	6,168,284	24.3%
Amortization	158,019	158,019	-	0.0%
Provision for doubtful accounts	1,244,862	12,613,283	(11,368,421)	-90.1%
Provision for claims	587,465	(2,448,965)	3,036,430	-124.0%
Total operating expenses	\$ 171,174,171	\$ 159,967,931	\$ 11,206,240	7.0%

The increase in power and pumping expenses in 2008 of \$1.1 million or 8.7% is primarily due to an increase in salaries. The increase in treatment expenses in 2008 of \$2.0 million or 12.1% is primarily due to an increase in the costs of chemicals. The decrease in transmission and distribution expenses in 2008 of approximately \$838 thousand or 4.2% is primarily due to a decrease in repairs due to damage incurred during natural disasters. The increase in payroll related expenses in 2008 of \$3.3 million or 11.6% is primarily due to salary increases in accordance with City of New Orleans Civil Service as well as an increased number of employees and \$8.5 million recognized for an increase in the other postretirement benefits liability. The increase in maintenance of general plant in 2008 of \$6.5 million or 23.9% resulted primarily from increases in the cost of high pressure gas, materials, supplies, contracts, fuel and electricity for all facilities and increases in payroll related costs, professional services, and consulting costs. Provisions for doubtful accounts decreased by \$11.4 million or 90.1% in 2008 as a result of a smaller increase in closed accounts which are fully reserved than in 2007 and additional reserves for amounts not expected to be collected following Hurricane Katrina recognized during 2007. Provisions for claims increased by \$3.0 million in 2008 as compared to 2007. Claims expense varies due to the number and severity of the claims during any period. The increase is due primarily to a large increase in reserves recognized during 2008 offset by claims payments made during 2008.

PENSION TRUST FUND

2009 Plan Net Assets

The Board's total plan net assets of its pension trust fund at December 31, 2009 was approximately \$184.8 million, a 13.8% increase from December 31, 2008 (see table A-7). Total assets increased 14.8% to \$191 million.

Table A-7				
Sewerage & Water Board of New Orleans				
Plan Net Assets				
	2009	2008	Increase (Decrease)	Increase (Decrease)
Cash	\$ 764,400	\$ 776,446	\$ (12,046)	-1.6%
Investments	190,173,791	165,246,434	24,927,357	15.1%
Receivables	38,703	120,733	(82,030)	-67.9%
Other assets	47,249	274,483	(227,234)	-82.8%
Total assets	191,024,143	166,418,096	24,606,047	14.8%
DROP participant payable	6,247,599	4,034,240	2,213,359	54.9%
Total liabilities	6,247,599	4,034,240	2,213,359	-54.9%
Plan net assets	\$ 184,776,544	\$ 162,383,856	\$ 22,392,688	13.8%

Plan net assets increased by \$22.3 million in 2009 primarily due to realized and unrealized gains on investments recognized in 2009.

2008 Plan Net Assets

The Board's total plan net assets of its pension trust fund at December 31, 2008 were approximately \$162.4 million, a 28.7% decrease from December 31, 2007 (see table A-7). Total assets decreased 28.2% to \$166.4 million.

Table A-8				
Sewerage & Water Board of New Orleans				
Plan Net Assets				
	2008	2007	Increase (Decrease)	Increase (Decrease)
Cash	\$ 776,446	\$ 102,653	\$ 673,793	656.4%
Investments	165,246,434	231,011,414	(65,764,980)	-28.5%
Receivables	120,733	420,795	(300,062)	-71.3%
Other assets	274,483	257,562	16,921	6.6%
Total assets	166,418,096	231,792,424	(65,374,328)	-28.2%
DROP participant payable	4,034,240	3,966,600	67,640	1.7%
Total liabilities	4,034,240	3,966,600	67,640	-1.7%
Plan net assets	\$ 162,383,856	\$ 227,825,824	\$ (65,441,968)	-28.7%

Plan net assets decreased by \$65.4 million in 2008 primarily due to realized and unrealized losses on investments recognized in 2008.

2009 Changes in Plan Net Assets

Table A-9				
Sewerage & Water Board of New Orleans				
Change in Plan Net Assets				
	2009	2008	Increase (Decrease)	Increase (Decrease)
Additions:				
Contributions	\$ 6,925,168	\$ 7,017,975	\$ (92,807)	-1.3%
Net income on investments	29,699,396	(59,190,144)	88,889,540	150.2%
Total additions	36,624,564	(52,172,169)	88,796,733	-170.2%
Deductions:				
Benefits	(11,140,341)	(10,782,636)	(357,705)	3.3%
Employee refunds	(85,524)	(133,779)	48,255	-36.1%
Employee DROP contributions	(3,006,011)	(2,353,384)	(652,627)	27.7%
Total deductions	(14,231,876)	(13,269,799)	(962,077)	7.3%
Change in net assets	22,392,688	(65,441,968)	87,834,656	-134.2%
Plan net assets, beginning of year	162,383,856	227,825,824	(65,441,968)	-28.7%
Plan net assets, end of year	\$ 184,776,544	\$ 162,383,856	\$ 22,392,688	13.8%

Net income on investments increased by \$88.9 million or 150.2% during 2009 due to increasing performance in the stock market as compared to 2008. The increase in the change in plan net assets of \$87.8 million resulted primarily from an increase in unrealized gains on investments in 2009.

2008 Changes in Plan Net Assets

Table A-10				
Sewerage & Water Board of New Orleans				
Change in Plan Net Assets				
	2008	2007	Increase (Decrease)	Increase (Decrease)
Additions:				
Contributions	\$ 7,017,975	\$ 6,753,824	\$ 264,151	3.9%
Net income on investments	(59,190,144)	7,947,645	(67,137,789)	-844.8%
Total additions	(52,172,169)	14,701,469	(66,873,638)	-454.9%
Deductions:				
Benefits	(10,782,636)	(10,625,533)	(157,103)	1.5%
Employee refunds	(133,779)	(215,746)	81,967	-38.0%
Employee DROP contributions	(2,353,384)	(1,971,448)	(381,936)	19.4%
Total deductions	(13,269,799)	(12,812,727)	(457,072)	3.6%
Change in net assets	(65,441,968)	1,888,742	(67,330,710)	-3564.8%
Plan net assets, beginning of year	227,825,824	225,937,082	1,888,742	0.8%
Plan net assets, end of year	\$ 162,383,856	\$ 227,825,824	\$ (65,441,968)	-28.7%

Net income on investments decreased by \$67.1 million or 844.8% during 2008 due to declining performance in the stock market as compared to 2007. The decrease in the change in plan net assets of \$67.3 million resulted primarily from a decrease in unrealized gains on investments in 2008.

CAPITAL ASSET AND DEBT ADMINISTRATION

2009 Capital Assets

As of December 31, 2009, the Board had invested approximately \$2.2 billion in capital assets. Net of accumulated depreciation, the Board's net capital assets at December 31, 2009 totaled approximately \$1.6 billion. This amount represents a net increase (including additions and disposals, net of depreciation) of approximately \$94.6 million or 6.3% over December 31, 2008.

At December 31, 2008, the Board's budget for its five year capital improvements program totaled approximately \$2.9 billion including \$238.6 million for water, \$426.5 million for sewerage and \$2.2 billion for drainage. Due to certain regulatory and legislative changes, additional capital improvements will probably be required. Future capital improvement program expenditures may require the issuance of additional debt depending on the amount and timing of expenditures. As of December 31, 2009, the Board has committed or appropriated \$80.7 million in investments for use in future capital projects and has \$6.2 million of bond proceeds remaining for construction. The capital project investments are included in restricted assets.

The capital improvements budget for 2009 is \$646.4 million, including \$304.9 million for projects, which are expected to be funded by federal grants and programs. Significant projects included in property, plant and equipment in progress as of December 31, 2009 include the following:

Hurricane Katrina related Repairs and Replacement
Southeast Louisiana Flood Control Program
Sewer System Sanitation Evaluation and Rehabilitation Program
Drainage Pumping Stations and Canals
Eastbank Sewer Treatment Plant
Westbank Sewer Treatment Plant

See Note 4 for detailed capital asset activity during 2009.

2008 Capital Assets

As of December 31, 2008, the Board had invested approximately \$2.1 billion in capital assets. Net of accumulated depreciation, the Board's net capital assets at December 31, 2008 totaled approximately \$1.5 billion. This amount represents a net increase (including additions and disposals, net of depreciation) of approximately \$44.6 million or 3.0% over December 31, 2007.

At December 31, 2008, the Board's budget for its five year capital improvements program totaled approximately \$2.2 billion including \$295.6 million for water, \$520.3 million for sewerage and \$1.4 billion for drainage. Due to certain regulatory and legislative changes, additional capital improvements will probably be required. Future capital improvement program expenditures may require the issuance of additional debt depending on the amount and timing of expenditures. As of December 31, 2008, the Board has committed or appropriated \$67.8 million in investments for use in future capital projects and has \$54.2 million of bond proceeds remaining for construction. The capital project investments are included in restricted assets.

The capital improvements budget for 2009 is \$625.8 million, including \$293.8 million for projects, which are expected to be funded by federal grants and programs.

2009 Debt Administration

The Board continues to make its regularly scheduled payments on its bonds. During 2009, \$37.3 million in principal payments were made.

The Board entered into a Cooperative Endeavor Agreement with the State of Louisiana in July 2006 to borrow up to \$77.5 million from the Debt Service Assistance Fund. During 2009, the Board made no additional draw downs on the loan program.

See Note 7 for detailed long term debt activity during 2009.

2008 Debt Administration

The Board continues to make its regularly scheduled payments on its bonds. During 2008, \$12.6 million in principal payments were made.

The Board entered into a Cooperative Endeavor Agreement with the State of Louisiana in July 2006 to borrow up to \$77.5 million from the Debt Service Assistance Fund. During 2008, the Board made additional draw downs of \$12.8 million on the loan program.

ECONOMIC FACTORS AND RATES

There are continued significant other revenues and expenses which impact the Board. State and federal grants related to the disaster are expected to have a significant impact on 2010. Total FEMA debris removal, mitigation, and capital replacement grants are expected to exceed \$297 million. Of these approximately \$247.4 million has been recognized through 2009. FEMA revenues will continue to be recognized as buildings, systems, and other reimbursable assets are repaired or replaced. In 2010, the Board will recognize additional portions of these revenues but much of the construction and replacement will not have been completed and the revenues although measurable may not be readily available due to the delays in actual receipts of FEMA funds.

On March 21, 2007, the Board approved a series of five annual water rate increases beginning with the first increase on November 1, 2007 followed by four additional increases to be implemented on July 1 of each year, 2008 through 2011. The New Orleans City Council approved the annual water rate increases on October 4, 2007. The rate increase scheduled for July 1, 2010 is 5%.

The number of open accounts has decreased from approximately 121,000 at the end of 2005 to approximately 117,900 at the end of 2009, a decrease of 2.6%. The number of open accounts decreased significantly in 2006 and 2007. However, the number of open accounts increased in 2009 by approximately 7,100.

CONTACTING THE BOARD'S FINANCIAL MANAGEMENT

This financial report is designed to provide our bondholders, patrons, and other interested parties with a general overview of the Board's finances and to demonstrate the Board's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Sewerage & Water Board of New Orleans at (504) 585-2356.

BASIC FINANCIAL STATEMENTS**

(This is page intentionally left blank)

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(1) Summary of Significant Accounting Policies

History and Organization

The major operation of the Sewerage and Water Board of New Orleans (the Board) is providing water, sewerage and drainage services for the City of New Orleans (the City). The Sewerage and Water Board of New Orleans was created by Act 6 of the Louisiana Legislature of 1899 as a special board independent of the City's government to construct, maintain and operate a water treatment and distribution system and a public sanitary sewerage system for the City. In 1903, the Legislature gave the Board control of and responsibility for the City's major drainage system and relieved the City of the duty of providing in its annual operating budget or otherwise for the maintenance and operations of the water, sewerage and drainage systems.

In accordance with the Louisiana Revised Statutes (LRS) 33:4096 and 4121, the Board has the authority to establish the water and sewerage rates to charge to its customers. The rates are based on the actual water consumed and on the costs of maintenance and operation of the water and sewerage systems, including the costs of improvements and replacements. The collections of water and sewerage revenues are to be used by the Board for the maintenance and operation of the systems, the cost of improvements, betterments, and replacements, and to provide for the payments of interest and principal on the bonds payable. On March 21, 2007, the Board approved a series of five annual water rate increases beginning with the first increase on November 1, 2007 followed by four additional increases to be implemented on July 1 of each year, 2008 through 2011. The New Orleans City Council approved the annual water rate increases on October 4, 2007.

The Board has also been given the authority to levy and collect various tax millages which are used for the operation and maintenance of the drainage operations. All excess revenues collected are made available for capital development of the system. The proceeds of the rate collections and tax millages are invested in such investments as authorized by the LRS. These investments are reflected in the combined statement of net assets, as "restricted assets," as they are restricted to the purposes as described above.

The Board is composed of thirteen members, including the Mayor of the City, the two Council Members-at-Large, and one District Councilman selected by the City Council, two members of the Board of Liquidation and seven citizens appointed by the Mayor. The appointed members of the Board serve staggered nine year terms.

The Board's accounting policies conform to accounting principles generally accepted in the United States of America as applicable to utilities and to governmental units. The following is a summary of the more significant policies.

(A) Reporting Entity

In conformity with the Governmental Accounting Standards Board's definition of a reporting entity, the Board includes an enterprise fund and a pension trust fund for financial reporting purposes. The Board is considered a reporting entity based on the following criteria:

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

- (a) Responsibility for surpluses/deficits. The Board is solely responsible for its surpluses/deficits. In accordance with Louisiana Revised Statutes, no other governmental unit is responsible for the Board's deficits or has a claim to its surpluses. The Board's operations are self-sustaining; revenues are generated through charges to customers and dedicated property taxes. Other than grants, no funding is received from the State of Louisiana or the City of New Orleans.
- (b) Budget Approval. The Board is solely responsible for reviewing, approving and revising its budget.
- (c) Responsibility for Debt. The Louisiana Revised Statutes authorize the Board to issue bonds; such bonds must bear on their face a statement that they do not constitute a debt of the City. The Board is solely responsible for payments to the bondholders. No other governmental unit is required by statute to make any payments to bondholders nor have any payments to bondholders ever been made by any governmental unit, except the Board.
- (d) Designation of Management. The Board controls the hiring of management and employees.
- (e) Special Financial Relationship. The Board has no special financial relationships with any other governmental unit.
- (f) Statutory Authority. The Board's statutory authority was created by the State of Louisiana as an independent governmental unit. Only an amendment to state statutes can change or abolish the Board's authority.

The Board is a stand-alone entity as defined by Governmental Accounting Standards Board Statement 14, *The Financial Reporting Entity*. The Board is a legally-separate governmental organization that does not have a separately elected governing body and does not meet the definition of a component unit. As a result of a Louisiana Supreme Court decision on March 21, 1994, the Board was declared to be an autonomous or self-governing legal entity, legally independent of the city, state and other governments, created and organized pursuant to Louisiana Revised Statutes 33:4071 as a board, separate and independent of the governing authorities of the City and vested with autonomous or self governing authority. No other government can mandate actions of the Board nor impose specific financial burdens. The Board is fiscally independent to operate under its bond covenant and the provisions of Louisiana Revised Statute provisions.

The City of New Orleans includes the Board as a component unit in the City's financial statements.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

(B) Basis of Financial Statement Presentation

The Board's basic financial statements consist of the government-wide statements which include the proprietary fund (the enterprise fund) and the fund financial statements which includes the fiduciary fund (the pension trust fund). The operations of the Board are accounted for in the following fund types:

Proprietary Fund Type

The proprietary fund is used to account for the Board's ongoing operations and activities which are similar to those often found in the private sector. The proprietary fund is accounted for using a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. Net assets are segregated into amounts invested in capital assets (net of related debt), restricted for debt service, restricted for capital projects and unrestricted. The Board's restricted assets are expendable for their purposes. The Board utilizes available unrestricted assets before utilizing restricted assets. The operating statements present increases (revenues) and decreases (expenses) in net assets. The Board maintains one proprietary fund type – the enterprise fund. The enterprise fund is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises--where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance. The presentation of the financial statements of the enterprise fund follows the format recommended by the National Association of Regulatory Utility Commissioners (NARUC).

The statement of net assets arrangement for a utility reflects the relative importance of the various accounts. "Property, plant and equipment" is the first major category on the asset side, and long-term capitalization categories of net assets are listed first on the liability side. Current assets and current liabilities are assigned a relatively less important position in the center of the statement of net assets, rather than being placed first as in the statement of net assets of commercial and industrial enterprises.

Operating revenues include all charges for service; other revenues include reconnection fees and other miscellaneous charges. Operating expenses include the costs associated with providing water, sewerage and drainage services. Interest income, interest expense and tax revenues are presented as non-operating items.

The enterprise fund is presented in the government-wide financial statements.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

Fiduciary Fund Type

The fiduciary fund is used to account for assets held by the Board in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. The Board maintains one fiduciary fund type - the pension trust fund. The pension trust fund uses the flow of economic resources measurement focus. All assets and liabilities associated with the operation of this fund are included in the statement of plan net assets. The pension trust fund is used to account for the activity of the Board's employee retirement plan.

The pension trust fund is presented in the fund financial statements.

The Board applies all applicable FASB pronouncements issued on or before November 30, 1989 in accounting for its enterprise fund and pension trust fund operations unless those pronouncements conflict with or contradict GASB pronouncements.

(C) Basis of Accounting

The enterprise fund and the pension trust fund prepare their financial statements on the accrual basis of accounting. Unbilled utility service charges are not recorded as management considers the effect of not recording such unbilled receivables as not material. Property taxes are recorded as revenue in the year for which they are levied. Plan member contributions are recognized in the period in which contributions are due. Employer contributions to the pension plan are recognized when due and the employer has made a commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

(D) Investments

Investments are reported at fair value, except for short-term investments (maturity of one year or less) which are reported at amortized cost, which approximates fair value. Securities traded in a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value.

(E) Inventory of Supplies

Inventory of supplies is stated at the lower of cost or market. Cost is determined by the first-in, first-out method.

(F) Property, Plant and Equipment

Property, plant and equipment are carried at historical cost. The Board capitalizes moveable equipment with a value of \$10,000 or greater; stationary, network and other equipment with a value of \$5,000 or greater and all real estate. The cost of additions includes contracted work, direct labor, materials and allocable cost. Donated capital assets are recorded at their estimated fair value at the date of donation.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

Interest is capitalized on property, plant and equipment acquired and/or constructed with tax exempt debt. Depreciation is computed using the straight-line method over the estimated useful life of the asset. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in revenue for the period. The cost of maintenance and repairs is charged to operations as incurred and significant renewals and betterments are capitalized. Deduction is made for retirements resulting from renewals or betterments.

(G) Vacation and Sick Pay

Vacation (annual leave) and sick pay (sick leave) are accrued when earned. Annual leave is accrued at the rate of .6923 of a workday for each bi-weekly accrual period for all employees on the payroll as of December 31, 1978. Employees hired after that date earn leave at a rate of .5 of a workday per bi-weekly pay period.

All employees on the payroll as of December 31, 1978 receive three bonus days each year; all employees hired after that date receive three bonus days each year for five through nine calendar years of continuous service; six bonus days each year for ten through fourteen years; nine bonus days each year for fifteen through nineteen years; and, twelve days for twenty or more years of continuous service. Civil Service's policy permits employees a limited amount of earned but unused annual leave which will be paid to employees upon separation from the Board. The amount shall not exceed ninety days for employees hired before January 1, 1979, and forty-five days for employees hired after December 31, 1978.

Sick leave is accumulated on a bi-weekly basis by all employees hired prior to December 31, 1978 at an accrual rate of .923 of a workday. For employees hired subsequent to December 31, 1978, the accrual rate is .5 of a workday for each bi-weekly period, plus a two day bonus each year for employees with six through fifteen calendar years of continuous service, and seven bonus days each year for employees with sixteen or more calendar years of continuous service.

Upon separation from the Board, an employee can elect to convert unused sick leave for retirement credits or cash. The conversion to cash is determined by a rate ranging from one day of pay for five days of leave for the 1st through 100th leave day to one day of pay for one day of leave for all days in excess of the 400th leave day. The total liability for unconverted sick leave as December 31, 2009 and 2008 is approximately \$13,783,000 and \$12,949,000, respectively. The amount included in the statements of net assets as of December 31, 2009 and 2008 is \$10,048,113 and \$9,435,109, respectively, which represents the annual leave and the converted sick leave since virtually all employees convert their sick leave to cash. The amounts for compensated absences include the salary cost as well as certain salary related costs, such as the Board's share of social security expense. The following table summarizes changes in the Board's vacation and sick pay liability.

Year	Beginning of Year Liability	Current Year Earned and Changes in Estimate	Payments	End of Year Liability
2009	9,435,109	7,239,848	(6,626,844)	10,048,113
2008	8,982,354	7,087,823	(6,635,068)	9,435,109

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS (Continued)

(1) Summary of Significant Accounting Policies (continued)

(H) Pension

The Board funds the accrued pension cost for its contributory pension plan which covers substantially all employees. Annual costs are actuarially computed using the entry age normal cost method.

(I) Drainage System

In 1903, the Legislature gave the Board control of and responsibility for the City's drainage system. The Drainage System was established as a department of the enterprise fund to account for the revenues from three-mill, six-mill and nine-mill ad valorem taxes designated exclusively for drainage services. These revenues have been supplemented by inspection and license fees collected by the Board. There exists a potential for additional financing by additional user service charges. Expenditures from the system are for the debt service of three-mill, six-mill and nine-mill tax bonds and drainage related operation, maintenance and construction.

(J) Self-Insurance/Risk Management

The Board is self-insured for general liability, workers' compensation, unemployment compensation and hospitalization benefits and claims. The accrued liability for the various types of claims represents an estimate by management of the eventual loss on the claims arising prior to year-end, including claims incurred and not yet reported including estimates of both future payments of losses and related claims adjustment and expense. Estimated expenses and recoveries are based on a case by case review.

(K) Capital Contributions

Contributions from developers and others, and receipts of Federal, State and City grants for acquisition of property, plant and equipment are recorded as capital contributions in the statement of revenues, expenses and changes in net assets.

(L) Bond Issue Cost and Refinancing Gains (Losses)

Costs related to issuing bonds are capitalized and amortized based upon the methods used to approximate the interest method over the life of the bonds. Beginning with fiscal years in 1994 and thereafter, gains and losses associated with refundings and advance refundings are being deferred and amortized based upon the methods used to approximate the interest method over the life of the new bonds or the remaining term on any refunded bond, whichever is shorter. Premiums associated with bond issues are amortized over the interest yield method.

(M) Cash Flows

For purposes of the statement of cash flows, only cash on hand and on deposit at financial institutions are considered to be cash equivalents. Certificates of deposits, treasury bills and other securities are considered investments.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(1) Summary of Significant Accounting Policies (continued)

(N) Use of Restricted Assets

When restricted and unrestricted resources are available to cover expenses, unrestricted resources are first applied.

(O) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenditures during the period. Actual results could differ from those estimates. The current economic environment has increased the degree of uncertainty inherent in those estimates and assumptions.

(P) Net Assets

The Board classifies net assets into two components: invested in capital assets, net of related debt and restricted. These components are defined as follows:

Invested in capital assets, net of related debt - This component of net assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding debt attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in this component of net assets. Rather, that portion of debt is included in the same component of net assets as the unspent proceeds.

Restricted - This component reports those net assets with externally imposed constraints placed on their use by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted - This component reports net assets that do not meet the definition of either of the other two components.

(2) Cash and Investments

The Board's investments and cash consist primarily of investments in direct obligations of the United States or agencies thereof and deposits with financial institutions.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS (Continued)

(2) Cash and Investments (continued)

Custodial Credit Risk – Deposits – Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. Statutes require that the Board's cash and certificates of deposit be covered by federal depository insurance or collateral. At December 31, 2009, the Board's deposits with banks consisted of cash totaling \$28,440,023 and certificates of deposit of \$42,191,060. At December 31, 2008, the Board's deposits with banks consisted of cash totaling \$40,291,215 and certificates of deposit of \$138,370,437. Of the cash bank balance at December 31, 2009 and 2008, \$1,250,000 and \$815,258, respectively, is covered by federal depository insurance. The remaining amount of the Board's cash bank balances and all certificates of deposit for 2009 and 2008 were covered by collateral held by custodial agents of the financial institutions in the name of the Board.

In accordance with GASB 40, unless there is information to the contrary, obligations of the U.S. Government are not considered to have credit risk and do not require disclosure of credit quality.

The following are the components of the Board's cash and investments as of December 31:

<u>2009</u>	<u>Unrestricted</u>	<u>Restricted</u>	<u>Total</u>

Investments - Statutes authorize the Board to invest in obligations of the U.S. Treasury, agencies, and instrumentalities, commercial paper rated A-1 by Standard & Poors Corporation or P-1 by Moody's Commercial Paper Record, repurchase agreements, and the Louisiana Asset Management Pool (LAMP). In addition, the pension trust fund is authorized to invest in corporate bonds rated A or better by Standard & Poors Corporation or AAA or better by Moody's Investors Service, and equity securities.

LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with Louisiana R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities. The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to provide immediate access to participants. The fair market value of investments is determined on a weekly basis to monitor any variances between amortized cost and market value. For purposes of determining participants' shares, investments are valued at amortized cost. LAMP is subject to the regulatory oversight of the state treasurer and LAMP's board of directors. LAMP is not registered with the SEC as an investment company.

Under the provisions of its benefit plan and state law, the Board's pension benefit trust engages in securities lending to broker dealers and other entities for cash collateral that will be returned for the same securities in the future. The cash collateral cannot be liquidated by the Board unless the borrower defaults. Cash collateral is initially pledged at 102.58% of the market value of securities lent and additional collateral is provided by the next business day if the value falls to less than 100% of the market value of the securities lent. No collateral exposure existed as of December 31, 2009 and 2008. The value of securities lent at December 31, 2009 and 2008 was \$23,642,221 and \$38,883,529. The market value of the cash collateral at December 31, 2009 and 2008 was \$24,253,164 and \$40,559,644.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(2) Cash and Investments (continued)

Interest Rate Risk - Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In general, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The Board has a formal investment policy that states that *the investment portfolio shall remain sufficiently liquid to meet all operating and capital requirements that may be reasonably anticipated and that maturities of investments are to be structured concurrent with cash needs to meet anticipated demand.* As of December 31, 2009 and 2008, the Board's Enterprise Fund investments in U.S. Government Securities and Instrumentalities included U.S. Treasury Bills and Strips totaling \$8,896,333 and \$17,596,899, respectively, all of which have a remaining maturity of less than one year.

Credit Risk - State law limits investments in securities issued, or backed by United States Treasury obligations, and U.S. Government instrumentalities, which are federally sponsored. The Board's investment policy does not further limit its investment choices. LAMP is rated AAAM by Standard & Poor's. The Pension Trust Fund's investment policy requires that fixed income investments be investment grade (BBB or higher as rated by Standard & Poor's or Baa or higher as rated by Moody's. Bonds rated below BBB/Baa are not to exceed 15% of the portfolio and non-rated bonds are not to exceed 1% of the portfolio.

(3) Defined Benefit Pension Plan

The Board has a single-employer contributory retirement plan covering all full-time employees, the Pension Trust Fund (PTF). The Board's payroll for current employees covered by PTF for the years ended December 31, 2009 and 2008 was \$29,947,906 and \$29,466,571, respectively; such amounts exclude overtime and standby payroll. Total payroll, including overtime and standby payroll, was \$45,742,506 and \$42,733,299 for the years ended December 31, 2009 and 2008, respectively. At December 31, the PTF membership consisted of:

	<u>2009</u>	<u>2008</u>
Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	771	752
Current employees:		
Vested	585	604
Non-vested	251	223
	<u>836</u>	<u>827</u>
Total	<u>1,607</u>	<u>1,579</u>

The benefit provisions were established by action of the Board in 1956 in accordance with Louisiana statutes. The Board retains exclusive control over the plan through the Pension Committee of the PTF. Effective January 1, 1996, the plan became qualified under Internal Revenue Code Section 401(a) and thus is tax exempt.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(3) Defined Benefit Pension Plan (continued)

The plan provides for retirement benefits as well as death and disability benefits. All benefits vest after ten years of service. Employees who retire at or after age sixty-five with ten years of credited service are entitled to an annual retirement benefit, payable biweekly for life, in an amount equal to two percent of their average compensation for each year of credited service up to ten years, increasing by (1) one-half percent per year for service years over ten years, (2) an additional one-half percent per year for service years over twenty years and (3) an additional one percent per year for service years over thirty years, for a maximum of four percent for each year of credited service. Average compensation is the average annual earned compensation (prior to 2002, less \$1,200) for the period of thirty-six successive months of service during which the employee's compensation was the highest. Employees with thirty years or more of credited service may retire without a reduction in benefits. Employees may retire prior to age sixty-two without thirty years of service with a reduction in benefits of three percent for each year of age below the age of sixty-two. If an employee leaves covered employment or dies before three years of credited service, the accumulated employee contributions plus related investment earnings are refunded to the employee or designated beneficiary.

The retirement allowance for retirees over age sixty-two is subject to a cost of living adjustment each January 1, provided that the member retired on or after January 1, 1984. The adjustment is based on the increase in the Consumer Price Index for all urban wage earners published by the U.S. Department of Labor, but is limited to an annual maximum of two percent on the first \$10,000 of initial retirement benefits.

Effective September 23, 1993, employers may transfer credit between the Board's plan and the City of New Orleans retirement system with full credit for vested service. The Board and its employees are obligated under plan provisions to make all required contributions to the plan. The required contributions are actuarially determined. Level percentage of payroll employer contribution rates is determined using the entry age normal actuarial funding method. Employees are required to contribute four percent of their regular salaries or wages.

The Board had attained full funding of the actuarially computed pension liability in 2000. Effective June 19, 2002, however, as a result of the adoption of several plan changes in accordance with the Board's reciprocity agreement with the City of New Orleans, the plan became unfunded. These changes impacted the plan's funding requirements by \$20,333,835, which is being amortized over a 10 year period. Key changes adopted included: (a) amendment to benefit formula; (b) adoption of a "Rule of 80" retirement; (c) change in the years of service required for a terminating employee to qualify for a later separation benefit from 10 years to 5 years; and (d) elimination of the exclusion of the first \$1,200 of earnings from benefits and contributions.

The annual required contribution for the current year was determined as part of the December 31, 2009 actuarial valuation using the entry age normal cost method. The actuarial assumptions included (a) 7.0% investment rate of return (net of administrative expenses) and (b) projected salary increase of 5.0% per year. Both (a) and (b) included an inflation component of 2.0%. The actuarial value of assets was determined using a seven-year weighted market average.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS (Continued)

(3) Defined Benefit Pension Plan (continued)

The Board's net pension asset for the years ended December 31 was as follows:

	<u>2009</u>	<u>2008</u>
Annual required contribution	\$ 7,591,495	\$ 7,146,527
Interest on net pension obligation	(38,882)	(195,069)
Adjustments to annual required contribution	<u>76,654</u>	<u>384,575</u>
Annual pension cost	7,629,267	7,336,034
Contributions made	<u>5,188,175</u>	<u>5,104,788</u>
Decrease in net pension asset	2,441,092	2,231,245
Net pension asset, beginning of year	<u>555,451</u>	<u>2,786,696</u>
Net pension (liability) asset, end of year	<u>\$ (1,885,642)</u>	<u>\$ 555,451</u>

The net pension asset is being amortized over 10 years as of December 31, 2009, using the level dollar closed method and using the same interest, salary increase and inflation factors as the plan.

Trend information for Board and employee contributions is as follows:

	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>Net Pension (Liability) Asset</u>
Fiscal year ending:			
December 31, 2009	\$ 7,629,268	68%	\$ (1,885,642)
December 31, 2008	\$ 7,336,034	70%	\$ 555,451
December 31, 2007	\$ 4,833,202	86%	\$ 2,786,695

The actuarially determined contribution requirement for the Board was 25.349% for 2009 and 24.253% for 2008. The contribution requirement for employees is 4.0%. The actual Board's and employees' contributions (including contributions for transferred employees from other pension plans) for years ended December 31 were as follows:

	<u>2009</u>	<u>2008</u>
Employer and other transfers	\$ 5,763,424	\$ 5,874,117
Employee	<u>1,161,744</u>	<u>1,143,858</u>
Total contributions	<u>\$ 6,925,168</u>	<u>\$ 7,017,975</u>

(3) Defined Benefit Pension Plan (continued)

Funded Status and Funding Progress

The funded status of the Plan as of December 31, 2009 and 2008, respectively, is based on the most recent actuarial valuation as follows:

Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded Actuarial Accrued Liability (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
2009	\$ 228,999,660	\$ 269,506,028	\$ 40,506,368	84.97	\$ 29,947,906	135.26%
2008	\$ 222,598,640	\$ 260,616,822	\$ 38,018,182	85.41	\$ 29,466,571	129.02%

The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

DROP

Beginning in 1996, the Board offered employees a "Deferred Retirement Option Plan" (DROP), an optional retirement program which allows an employee to elect to freeze his or her retirement benefits, but continue to work and draw a salary for a minimum period of one year to a maximum period of five years. While continuing employment, the retirement benefits are segregated from overall plan assets available to other participants. As of December 31, 2009 and 2008, 119 and 99 employees, respectively, participated in the plan. The amount of plan assets segregated for these individuals was \$6,247,599 and \$4,034,240 as of December 31, 2009 and 2008, respectively.

A separate report on the pension trust fund is not issued.

(4) Property, Plant and Equipment

The useful lives of property, plant and equipment consisted of the following:

Power and pumping stations - buildings	57 years
Power and pumping stations - machinery	40 years
Distribution systems	75 years
Sewerage collection	75 years
Canals and subsurface drains	75 to 100 years
Treatment plants	50 years
Connections and meters	50 years
Power transmission	50 years
General plant	12 years
General buildings	25 years

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS (Continued)

(7) Changes in Long-term Obligations (continued)

a. Bonds Payable (continued)

In 2009, the Board refunded the \$24,030,000 Sewerage Service Refunding Bond Anticipation Notes, Series 2006, using the proceeds of the \$23,375,000 Sewerage Service Revenue Bonds Series 2009 and \$2,161,565 of excess debt service reserve funds. The Series 2009 bonds are payable in installments beginning in 2010 through 2029. As part of the refunding, the Board paid \$1,172,452 of bond costs, which are amortizable through the date of maturity of the bonds. The bonds are secured by a pledge of revenues of the Sewerage Fund.

The indentures under which these bonds were issued provide for the establishment of restricted funds for debt service as follows:

1. Debt service funds are required for the payment of interest and principal on the revenue and tax bonds. Monthly deposits on revenue bonds, excluding bond anticipation notes, are required to be made into this fund from operations in an amount equal to 1/6 of the interest falling due on the next interest payment date, and an amount equal to 1/12 of the principal falling due on the next principal payment date. All debt service funds are administered by the Board of Liquidation. The required amount to be accumulated in this fund was \$7,659,179 and \$6,926,669 at December 31, 2009 and 2008, respectively; the accumulated balance at December 31, 2009 and 2008 was \$9,948,166 and \$9,821,453 respectively. Monthly deposits to the debt service funds were temporarily suspended due to debt service payments being paid directly by the State of Louisiana through a Cooperative Endeavor Agreement and resumed as of June 2008. See note (7) c. for additional information.
2. A debt service reserve is required for an amount equal to but not less than fifty percent of the amount required to be credited in said month to the debt service fund until there shall be accumulated in the debt service reserve account the largest amount required in any future calendar year to pay the principal and interest on outstanding bonds, except for the water and sewer bonds. The water bonds require an amount equal to the largest amount required in any future calendar year to pay the principal of and interest on outstanding bonds. There is no debt service reserve required for the 1998 and 2002 drainage 9 mill tax bonds. The sewer bonds require an amount equal to 125% of average aggregate debt service. The required amount to be accumulated in this fund was \$19,771,985 and \$22,289,918 at December 31, 2009 and 2008 respectively; the accumulated balance at December 31, 2009 and 2008 was \$20,092,504 and \$22,254,068, respectively.

The Board is in compliance with the requirements of its long-term debt agreements for the Water Department for the year ended December 31, 2009. The net operating revenues of the Water Department for the year ended December 31, 2008 did not meet the bond indenture required debt service coverage of 130 percent.

The net operating revenues of the Sewerage Department for the year ended December 31, 2009 did not meet the bond indenture required debt service coverage of 130 percent. The Board was in compliance with the requirements of its long-term debt agreements for the Sewerage Department for the year December 31, 2008.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(7) Changes in Long-term Obligations (continued)

b. Special Community Disaster Loan Payable

During January 2006, the Board entered into a long-term agreement with the Federal Emergency Management Agency under the Community Disaster Loan Act of 2005 as a result of the major disaster declaration of August 29, 2005 for Hurricane Katrina. The Board made draw downs totaling \$61,956,747 as of December 31, 2009. The loan is for a term of five years, which may be extended, and shall bear interest at the latest five-year Treasury rate at the time of the closing date of the loan, plus one percent. Simple interest accrues from the date of each disbursement. Payments of principal and interest are deferred until the end of the five year period. As of December 31, 2009 and 2008, approximately \$5.8 million and \$4.1 million of interest was accrued, respectively. Interest rates and maturity dates for the draw downs are as follows:

<u>Maturity Date</u>	<u>Interest Rate</u>	<u>Principal</u>
January 23, 2011	2.66%	\$ 22,298,689
June 21, 2011	3.12%	6,013,905
August 27, 2011	2.93%	33,644,153
		<u>\$ 61,956,747</u>

Operating revenues are pledged as security for the loan. Debt service requirements relating to the loan due in 2011 include \$61,956,747 of principal and \$8,475,957 of interest.

The Board has submitted an application for forgiveness of the loan.

c. Debt Service Assistance

In July 2006, the Board and the State of Louisiana (the State) entered into a Cooperative Endeavor Agreement whereby the State agreed to lend up to \$77,465,247 from State funds on deposit in the Debt Service Assistance Fund, authorized by the Gulf Opportunity Zone Act of 2005 and Act 41 of the First Extraordinary Session of the Louisiana Legislature of 2006, to assist in payment of debt service requirements from 2006 through 2008 due to disruption of tax bases and revenue streams caused by Hurricanes Katrina and Rita. Draw downs on the loan will be made as debt service payments become due. No principal or interest shall be payable during the initial five year period of the loan. After the expiration of the initial five year period, the loan shall bear interest at a fixed rate of 4.64 percent. Principal payments on the bonds begin in July 2012 and the loan will mature in July 2026. Interest is payable semi-annually on January 15 and July 15 beginning January 2012. The loan may be prepaid without penalty or premium. The Board has the right to request one extension of its obligation to begin payments under the loan not to exceed five years. As of December 31, 2009 and 2008, the Board has drawn down \$77,460,393 on this agreement.

Debt service requirements relating to the bond are as follows:

<u>Years Ending June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2012	\$ 3,688,291	\$ 3,594,387	\$ 7,282,678
2013	3,859,428	3,423,251	7,282,679
2014	4,038,505	3,244,173	7,282,678
2015-2019	23,183,384	13,230,008	36,413,392
2020-2024	29,084,760	7,328,632	36,413,392
2025-2026	13,606,025	954,477	14,560,502
	<u>\$ 77,460,393</u>	<u>\$ 31,774,928</u>	<u>\$ 109,235,321</u>

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS (Continued)

(8) Due to City of New Orleans

The Board bills and collects sanitation charges on behalf of the City of New Orleans (the City). The Board is not liable for any uncollected sanitation charges.

Additionally, amounts included in accounts payable due to the City were \$5,130,226 and \$2,763,866 at December 31, 2009 and December 31, 2008, respectively.

(9) Property Taxes

Property taxes are levied by the City of New Orleans. Taxes on real and personal property attach as an enforceable lien on the property as of January 1. Taxes are levied on January 1, are payable on January 1, and are delinquent on February 1.

The assessed value of the property is determined by an elected Board of Assessors. The assessed value for 2009 and 2008 was \$2,916,739,334 and \$2,836,995,254, respectively. The combined tax rate dedicated for the Board for the years ended December 31, 2009 and 2008 was \$16.03 and \$16.43, respectively, per \$1,000 of assessed valuation. These dedicated funds are available for operations, maintenance, construction and extension of the drainage system (except for subsurface systems).

(10) Commitments

a. Capital Improvements

At December 31, 2009, the Board's budget for its five year capital improvements program totaled \$2,924,297,000 including \$238,696,000 for water, \$426,504,000 for sewerage and \$2,259,097,000 for drainage.

Due to certain regulatory and legislative changes, additional capital improvements will probably be required. Future capital improvement program expenditures may require the issuance of additional debt depending on the amount and timing of expenditures. As of December 31, 2009, the Board has committed or appropriated \$84,040,831 in investments for use in future capital projects and has \$6,221,641 of bond proceeds remaining for construction. The capital project investments are included in restricted assets.

The capital improvements budget for 2010 is \$646,435,000 including \$304,957,000 for projects, which are expected to be funded by federal grants and programs. Significant projects included in property, plant and equipment in progress as of December 31, 2009 include the following:

Hurricane Katrina related Repairs and Replacement
Southeast Louisiana Flood Control Program
Sewer System Sanitation Evaluation and Rehabilitation Program
Drainage Pumping Stations and Canals
Eastbank Sewer Treatment Plant
Westbank Sewer Treatment Plant

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(10) Commitments (continued)

b. Self-insurance

The Board is self-insured for general liability, workers' compensation, and hospitalization benefits and claims. Settled claims have not exceeded excess coverage in any of the past three fiscal years. Hospitalization benefits are charged to payroll related expense.

General liability claims are segregated internally by "claims" and "suits" depending on the scope and type of claim, and are handled by the Office of the Special Counsel and Administrative Services. Individual general liability losses have ranged from \$100 to \$7,500,000, illustrating the volatility of this exposure. The provision for claims expense for 2009 and 2008 amounted to \$4,115,223 and \$3,990,705, respectively.

Worker's compensation expense provision for 2009 and 2008 amounted to \$309,679 and \$1,530,333, respectively.

The hospitalization self-insurance benefits are administered by Blue Cross of Louisiana. The Board's expense provision in excess of employee contributions for 2009 and 2008 was approximately \$12,868,061 and \$11,871,000, respectively, and is included in payroll related expenses.

Changes in the claims payable amount are as follows (health payments are reflected net):

Fiscal Year	Beginning of Year	Current Year Claims and Estimate Change	Claim Payments	End of Year
2009	\$ 23,126,865	\$ 8,336,589	\$ (10,859,663)	\$ 20,603,791
2008	28,980,804	11,361,649	(17,215,588)	23,126,865

The composition of claims payable is as follows:

	2009	2008
Short-term:		
Workers' Compensation	\$ 1,328,026	\$ 1,170,516
Health Insurance	2,046,601	2,144,600
General Liability	12,891,038	14,938,573
Total short-term	16,265,665	18,253,689
Long-term:		
Workers' Compensation	4,338,126	4,873,176
Total long-term	4,338,126	4,873,176
Total	\$ 20,603,791	\$ 23,126,865

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS (Continued)

(10) Commitments (continued)

c. Regulatory Matters

The Board, as well as other utilities, is subject to environmental standards imposed by federal, state and local environmental laws and regulations. The Board has entered into a consent decree with the United States which allows the Board to go forward with its major program to repair and rehabilitate the sewerage system. The overall costs of the program are estimated at \$408.2 million over a period ending in 2015. The Board is in compliance with the decree.

The Board is also participating in Federal financial award programs which are subject to financial and compliance audits by various agencies. No disallowed costs have been identified. As part of Federal and other governmental agency funding, the Board is required to match a portion of funding received. The Board believes it has sufficient funds to meet its matching requirements.

d. Postemployment Healthcare Benefits

Plan Description – The Board's postemployment benefit is a single-employer defined benefit plan. The Board's post-employment medical benefits for retirees are provided through a self-insured medical plan and are made available to employees upon actual retirement.

The retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 62 and 10 years of service; age 65 and 5 years of service; age 70 regardless of service; or, if age plus service equals at least 80. Complete plan provisions are contained in the official plan documents. Currently, the Board provides post employment medical benefits to 584 retired employees.

Contribution Rates - Employees do not contribute to their post employment benefits costs until they become retirees and begin receiving those benefits. The plan provisions and contribution rates are contained in the official plan documents.

Fund Policy - Until 2007, the Board recognized the cost of providing post-employment medical benefits (the Board's portion of the retiree medical benefit premiums) as an expense when the benefit premiums were due and thus financed the cost of the post-employment benefits on a pay-as-you-go basis. In 2009 and 2008, the Board's portion of health care funding cost for retired employees totaled \$5,487,971 and \$5,673,616, respectively.

Effective January 1, 2007, the Board implemented Government Accounting Standards Board Statement Number 45, *Accounting and Financial Reporting by Employers for Post employment Benefits Other than Pensions* (GASB 45). This amount was applied toward the Net OPEB Benefit Obligation as shown in the following tables.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(10) Commitments (continued)

d. Postemployment Healthcare Benefits (continued)

Annual Required Contribution - The Board's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB 45. The ARC is the sum of the Normal Cost plus the contribution to amortize the Actuarial Accrued Liability (AAL). A level dollar, open amortization period of 30 years (the maximum amortization period allowed by GASB 43/45) has been used for the post-employment benefits. The actuarially computed ARC is as follows:

	2009	2008
Normal cost	\$ 4,395,288	\$ 4,013,401
30-year UAL amortization amount	10,650,824	10,291,219
Annual required contribution (ARC)	\$ 15,046,112	\$ 14,304,620

Net Post-employment Benefit Obligation - The table below shows the Board's Net Other Post-employment Benefit (OPEB) Obligation for fiscal years ending December 31:

	2009	2008
Beginning Net OPEB Obligation	\$ 15,186,702	\$ 6,674,710
Annual required contribution	15,046,112	14,304,620
Interest on Net OPEB Obligation	607,468	266,988
ARC Adjustment	(878,250)	(386,000)
OPEB Cost	14,775,330	14,185,608
Contribution	-	-
Current year retiree premium	(5,487,971)	(5,673,616)
Change in Net OPEB Obligation	9,287,359	8,511,992
Ending Net OPEB Obligation	\$ 24,474,061	\$ 15,186,702

The following table shows the Board's annual post employment benefits (PEB) cost, percentage of the cost contributed, and the net unfunded post employment benefits (PEB) liability:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual Cost Contributed	Net PEB Liability (Asset)
December 31, 2009	\$ 14,775,330	37.14%	\$ 24,474,061
December 31, 2008	14,185,608	40.00%	15,186,702

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS (Continued)

(10) Commitments (continued)

d. Postemployment Healthcare Benefits (continued)

Funded Status and Funding Progress - In 2009 and 2008, the Board made no contributions to its post employment benefits plan. The plan is not funded, has no assets, and hence has a funded ratio of zero. As of January 1, 2009, the most recent actuarial valuation, the Actuarial Accrued Liability (AAL) was \$184,174,734 which is defined as that portion, as determined by a particular actuarial cost method (the Board uses the Unit Credit Cost Method), of the actuarial present value of post employment plan benefits and expenses which is not provided by normal cost.

	<u>2009</u>	<u>2008</u>
Actuarial Accrued Liability (AAL)	\$ 184,174,734	\$ 177,956,339
Actuarial Value of Plan Assets (AVP)	-	-
Unfunded Act. Accrued Liability (UAAL)	\$ <u>184,174,734</u>	\$ <u>177,956,339</u>
Funded Ratio (AVP/AAL)	0.00%	0.00%
Covered Payroll (active plan members)	\$ 33,883,192	\$ 29,466,571
UAAL as a percentage of covered payroll	543.56%	604.93%

Actuarial Methods and Assumptions - Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. The actuarial valuation for post employment benefits includes estimates and assumptions regarding (1) turnover rate; (2) retirement rate; (3) health care cost trend rate; (4) mortality rate; (5) discount rate (investment return assumption); and (6) the period to which the costs apply (past, current, or future years of service by employees). Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial calculations are based on the types of benefits provided under the terms of the substantive plan (the plan as understood by the Board and its employee plan members) at the time of the valuation and on the pattern of sharing costs between the Board and its plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the Board and plan members in the future. Consistent with the long-term perspective of actuarial calculations, the actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial liabilities and the actuarial value of assets.

Actuarial Cost Method - The ARC is determined using the Unit Credit Cost Method. The employer portion of the cost for retiree medical care in each future year is determined by projecting the current cost levels using the healthcare cost trend rate and discounting this projected amount to the valuation date using the other described pertinent actuarial assumptions, including the investment return assumption (discount rate), mortality and turnover.

Actuarial Value of Plan Assets - There are not any plan assets. It is anticipated that in future valuations a smoothed market value consistent with Actuarial Standards Board ASOP 6, as provided in paragraph number 125 of GASB Statement 45.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(10) Commitments (continued)

d. Postemployment Healthcare Benefits (continued)

Turnover Rate - An age-related turnover scale based on actual experience has been used. The rates, when applied to the active employee census, produce a composite average annual turnover of approximately 7%. In addition to age related turnover, it has additionally been assumed that 10% of future eligible retirees will decline coverage upon retirement. The rates for each age are below:

<u>Age</u>	<u>Percent Turnover</u>
18 - 25	10.0%
26 - 40	8.0%
41 - 54	5.0%
55+	4.0%

Post employment Benefit Plan Eligibility Requirements - It is assumed that entitlement to benefits will commence five years after earliest eligibility for retirement (D.R.O.P. entry). The five years is to accommodate the anticipated period of the D.R.O.P. Also, if the initial eligibility for D.R.O.P. entry is prior to age 55, an additional one year delay has been assumed, and it has been assumed that members eligible for the "Rule of 80" retirement formula delay three years beyond that earliest retirement date. Medical benefits are provided to employees upon actual retirement. The retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 62 and 10 years of service; age 65 and 5 years of service; age 70 regardless of service; or, if age plus service equals at least 80. Entitlement to benefits continues through Medicare to death.

Investment Return Assumption (Discount Rate) - GASB Statement 45 states that the investment return assumption should be the estimated long-term investment yield on the investments that are expected to be used to finance the payment of benefits (that is, for a plan which is funded). Based on the assumption that the ARC will not be funded, a 4% annual investment return has been used in this valuation. This is a conservative estimate of the expected long term return of a balanced and conservative investment portfolio under professional management.

Health Care Cost Trend Rate - The expected rate of increase in medical cost is based on projections performed by the Office of the Actuary at the Centers for Medicare & Medicaid Services as published in National Health Care Expenditures Projections: 2003 to 2013, Table 3: National Health Expenditures, Aggregate and per Capita Amounts, Percent Distribution and Average Annual Percent Change by Source of Funds: Selected Calendar Years 1990-2013, released in January, 2004 by the Health Care Financing Administration (www.cms.hhs.gov). "State and Local" rates for 2008 through 2013 from this report were used, with rates beyond 2013 graduated down to an ultimate annual rate of 5.0% for 2016 and later.

Mortality Rate - The 1994 Group Annuity Reserving (94GAR) table, projected to 2002, based on a fixed blend of 50% of the unloaded male mortality rate and 50% of the unloaded female mortality rates, was used. This is the mortality table which the Internal Revenue Service requires to be used in determining the value of accrued benefits in defined benefit pension plans. Since GASB 45 requires the use of "unblended" rates, the 94GAR mortality table described above was used to "unblend" the rates so as to reproduce the composite blended rate overall as the rate structure to calculate the actuarial valuation results for life insurance.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(10) Commitments (continued)

d. Postemployment Healthcare Benefits (continued)

Method of Determining the Value of Benefits - The "value of benefits" has been assumed to be the portion of the premium after retirement date expected to be paid by the employer for each retiree and has been used as the basis for calculating the actuarial present value of OPEB benefits to be paid. The current premium schedules for active and retired are "unblended" rates, as required by GASB 45.

e. Southeast Louisiana Project

In 2009, the Coastal Protection and Restoration Authority of Louisiana entered into agreements (SELA PPA and SELA DPA) with the Department of the Army for the Southeast Louisiana, Louisiana Project in Jefferson and Orleans Parishes (the Project). The purpose of the Project is to provide flood damage reduction and interior drainage for Orleans and Jefferson Parishes in southeast Louisiana. The agreements set forth the obligations of the federal government and non-federal sponsors, including the Board, regarding the construction and the operation, maintenance, repair, rehabilitation, and replacement of the Project. For the projects, the federal government is liable for 65% of the project costs and the non-federal sponsors are liable for the remaining 35%. Under the agreement, the Department of the Army, subject to the availability of funds appropriated by the Congress of the United States, shall design and construct specified work at 100% federal expense. The Board will be allowed to defer payment of its required non-federal contribution of funds of 35% and to pay said contribution of funds with interest over a period of not more than 30 years from the date of completion of the project or separable element of the project. The interest rate to be used in computing the interest shall be determined by the Secretary of the Treasury, taking into consideration average market yields on outstanding marketable obligations of the United States with remaining periods of maturity comparable to the payment period during the month preceding the Government fiscal year in which the first federal construction contract for such separable element is awarded to the SELA PPA, plus a premium of one-eighth of one percentage point for transaction costs. As of December 31, 2009, the Board has not incurred a liability under the agreement.

(11) Deferred Compensation Plan

The Board offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. This plan, available to all employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All amounts of compensation deferred under the plan, all property, and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held in trust for the employees, therefore the assets of the plan are not included in these financial statements.

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(12) Budgets

Operating and capital expenditure budgets are adopted by the Board on a basis consistent with accounting principles generally accepted in the United States. While not legally required, this budgetary information is employed as a management control device during the year. Comparison between actual and budgeted expenses is not a required presentation for an Enterprise Fund.

(13) Segment Information

The Board issued revenue bonds to finance its water and sewerage departments which operate the Board's water and sewerage treatment plants and distribution and collection systems. These bonds are accounted for in a single fund; however, investors in the revenue bonds rely solely on the revenue generated by the individual activities for repayment.

Summary financial information for these departments as of and for the years ended December 31 is as follows:

SEWERAGE AND WATER BOARD OF NEW ORLEANS

NOTES TO FINANCIAL STATEMENTS

(Continued)

(14) Natural Disaster

As of December 31, 2009 and 2008, the Board has cumulatively received \$169,320,233 and \$140,969,811, respectively, of cash reimbursements from the Federal Emergency Management Agency (FEMA). Included in accounts receivable as of December 31, 2009 and 2008 are \$34,670,897 and \$13,046,853, respectively, of reimbursements due from FEMA. In 2008, approximately \$48 million of receivables were written off as a result of expenses previously submitted to FEMA for reimbursement that are currently in dispute and subject to appeal or due to expenses that have been disallowed by FEMA. Eligible FEMA grants totaling in excess of \$297 million are in various stages of the approval process and include amounts for system repairs, building repairs, vehicle and equipment repairs and replacements, temporary power, supplies and other costs.

On June 29, 2007, the Board entered into a Cooperative Endeavor Agreement with the State of Louisiana, City of New Orleans, Louisiana, and the Louisiana Public Facilities Authority (LPFA). The LPFA agreed to issue its bonds to provide the cash capital investment to pay for capital improvements of the City of New Orleans and the Board. The establishment of the construction fund permits the Board and City of New Orleans to publicly bid contracts that are subject to a Project Worksheet that has been obligated by FEMA or for which an award letter has been received and encumber such amounts. The State of Louisiana, City of New Orleans, and Sewerage and Water Board agree that as FEMA pays any reimbursement amounts related to projects for which disbursements have been made, or the City or the Sewerage and Water Board receives monies related to the hazard mitigation grant program for which disbursements have been made from the construction fund, the full amount of such projects shall be deposited in the construction fund and used to fund additional projects until all City of New Orleans and Sewerage and Water Board improvements are completed. The total amount made available to the Board under the agreement was \$100,000,000. At December 31, 2009 and 2008, the Board had an outstanding obligation under the agreement of \$25,990,028 and \$7,831,591 included as a liability in due to other governments on the statements of net assets, which represent amounts not yet reimbursed by FEMA and deposited back into the construction fund.

In 2008, the Board received an excess payment of FEMA funds in the amount of \$21,097,027. This balance is included as a liability in due to other governments on the statements of net assets as of December 31, 2008. The Board paid \$18,098,192 to FEMA in 2009. As of December 31, 2009, the outstanding balance was \$2,998,835.

See independent auditors' report.

(This is page intentionally left blank)

The Sewerage & Water Board has begun construction to install a 15-megawatt generator, which will give the Board's Division of Pumping and Power the capability to improve the operation of the pumping system in emergencies. The generator, the size of a locomotive, would be put into service if commercial power would fail or become unavailable, or if the Board's own power generation system would go out of service. The \$3.5 million project is funded 100% by the U. S. Army Corps of Engineers as part of a storm-proofing project for Orleans Parish and will greatly enhance pumping and power operations. The generator, to be located on the grounds of the Carrollton Water Purification Plant, is scheduled for completion in October of 2011.

The Board's Machine and Welding Shop, a part of the Facilities Maintenance Department, can fabricate parts as small as a screw or as large as an impeller for the Board's drainage pumps to exacting specifications. With this capability, the shop can supply in-house manufactured parts (no longer available commercially) to employees in the field, enabling them to restore service to customers in record time. The shop's team takes pride in its ability to manufacture parts no longer available "off the shelf" for the many unique pumps, valves and equipment used throughout the water, sewerage and drainage systems.

SUPPLEMENTAL SECTION

The new Lamb Road Sewer Pump Station will replace one built in 1962 to serve the areas of Pines Village, Kenilworth and other nearby subdivisions. Hurricane Katrina caused catastrophic damage to mechanical equipment, electrical switches, motors, controls and other operational parts to the old station. All of the equipment in the station vault was submerged for several weeks and the above-ground electrical enclosure was partially submerged for several days.

The new Lamb Road Station is largely located underground with only the electrical power disconnect, metering cabinet and SCADA (supervisory control and data acquisition) panel above ground at grade level. Construction began in October of 2009 and the station will be completed in _____ at a cost of \$1.4 million. This important project will result in increased sewer pumping capacity for the area and improved data collection.

* Note: The results for constituents indicated with asterisks are from the Louisiana Department of Health and Hospitals. Total Organic Carbon and Haloacetic Acid results are from a DHH-OPH certified contract lab. All other results are from testing by the S&WB Water Quality Laboratory. Concerning the chemical results, the S&WB Water Quality Laboratory does not meet the higher criteria required by DHH-OPH to be classified as a "DHH-OPH Certified Chemical Laboratory/Drinking Water," therefore, any results reported by this laboratory for chemical drinking water parameters which are required to be analyzed in a certified laboratory are officially deemed invalid.

The S&WB Laboratory is certified for Total Coliform and Fecal Coliform bacteriological testing.

** Note: The lead and copper testing was performed in 2008 by LA DHH.
